- Wet bar
- 52-inch TV in living room with entertainment center
- Wi-Fi
- A personal staff including a butler, chef, housekeeper, and a private vehicle and driver for personal use
- 6,500-square-foot interior
- 5,200-square-foot exterior
- Convenient to the resort's main lobby, restaurant and beach
- Seamless-edge pool and dipping pool with decks on both North and South exposures
- Outdoor grilling area

This private gated villa estate sits on its own mountain perched high above the resort, featuring 360-degree views out over Deadman's Bay, the Atlantic Ocean and the Sir Francis Drake Channel and many Virgin Islands dotted on the horizon. The wraparound deck, surrounded by colorful gardens has casual chaises and comfortable chairs so everyone can pick their favorite view to watch the yachts sail by below or watch the sunrise or sunset. The Santa Barbara coastal style architecture and open floor plans ensure that each view from the villa is a spectacular one.

The villa consists of the main house with a master bedroom, and three additional exterior bedrooms located down a winding path that leads to the kidney-shaped, seamless-edge pool in the back of the villa. Each bedroom design has a different color palette. The master bedroom is a soothing mixture of beige and whites, while the exterior bedrooms have vibrant color themes: the "Red Room," "Blue Room" and "Green Room." All are lavishly appointed and feature master baths with two-person showers and double Jacuzzi tubs. All have their own entrance and private balconies where guests can unwind and enjoy a moment of tranquility as they take in their magnificent surroundings. The living room boasts various seating areas, as well as a 52-inch flat screen TV with entertainment center.

The wet bar is always well stocked and guests can choose to have their preferred beverages stocked prior to arrival. The dining room overlooks the enchanting vistas of the bay beyond, although most guests choose to dine outdoors on their spacious deck, as tiki torches provide a golden light over a perfect dinner under the moon and stars.

The fully equipped kitchen can be used to prepare any meal, but most guests enjoy the services of their private chef or join the resort guests in our world class restaurants. Whether guests seek the privacy of their villa or would like to enjoy the resort, both options are available to them.

Crow's Nest Villa is available on an Estate only basis or Full Service Inclusive basis. The Full Service option includes the services of a butler and chef, and includes breakfast, lunch and dinner, as well as non-alcoholic beverages for up to eight guests. Housekeeping service is provided twice daily on either plan. Regardless of the plan chosen, the Villa Director will oversee every aspect of the perfect villa stay as personalization through customization is what we do best at Peter Island Resort and Spa.
